UPGRADE YOUR CAR WITH ARVENTO TREYKI AUTO AND STAY CONNECTED TO YOUR CAR AND BELOVED ONES

Thanks to Arvento Treyki Auto, you can track the location of your vehicle by connecting it to your mobile phone, be alerted if it is moved out of your control, and get an actual and retrospective report of the driving behaviors of yourself and your beloved ones.

By using the Treyki Auto device and the interconnected Treyki mobile app, which are easily plugged into your car's OBD socket you can get a trip history of your vehicle, visualize any sudden acceleration and deceleration or bring up any speed violation data changing the driving habits of yourself and your beloved ones by assigning them a 'Driver Safety Score'.

Smarter and Safer Journeys with Arvento Treyki Auto

VALET MODE

You will no longer get concerned when you leave your car to the valet. Treyki Auto makes it possible for you to track your car from the moment you leave your keys to the valet and see where it has been parked. You can get an alert message if and when your car is moved out of your consent. This way, you stop getting concerned about your car and enjoy your dinner.

FIND MY CAR

Do you often forget where you park your car? Thankfully, Treyki Auto has been equipped with the 'Find My Car' feature. With this feature, you can easily find the location of your car without losing time.*

PARK MODE

The Park Mode will ease you wherever you are. You can track your car on the application when you get an alert message if and when your car is moved out of your consent.*

TRIP HISTORY

You can get a retrospective report of all the trips of your car. This enables you to track the trip history of your car including the date and locations of driving.

SAFE ZONE

Do you want to restrict the driving zone of your car? Thanks to the 'Safe Zone' feature, you can identify a predefined driving zone of your car whereby you will get warned by an alert message if and when it is moved out of this zone.

DRIVER SAFETY SCORE

Is your car driven as safe as it should be? You can get a report of the driving habits of yourself or your beloved ones including any information on sudden accelerations, right or left turns, or sudden breaks with a safe driving score assigned for these habits. This way, you can have a positive influence over your safe driving habits.

COLLISION ALERT

Safety matters to us all. You will get an instantaneous alert message if and when you or your beloved ones face a risky situation or in the event of a collision.

SERVICE ALERT

You can track the health status of your car by a service mode. You will get alerted by a message in case of battery or engine breakdown. You can also follow periodic maintenance requirements.

TOWING ALERT

You don't have to be worried about your car when you are away. You will get an alert message if your car is towed. You can track the location of your car instantaneously or retrospectively.*

SPEED LIMIT VIOLATION

You can preset a speed limit on your car for the safety of your beloved ones. This way, you will get an alert message if and when the designated speed limit is exceeded.

* This feature is not usable in inaccessible areas such as closed garages or closed parking lots.

Discover a safer and smarter driving experience by downloading the Treyki Auto mobile app.
